To
Subject Follow-up Questions from Sen. Levin's Office

In follow-up to the April 5, 2007 response to Senator Levin re: the Kalamazoo cleanup, Alice Yates in his DC office submitted the following questions for our response. Thanks.

Subject RE: Copy of Response/Attachments to Sen. Levin's
Kalamazoo Letter

A few more questions:

1. What is the timing for the TCRA at the former Plainwell Impoundment area at the Kalamazoo Superfund Site? Will the EPA delay action until the community's concerns have been addressed?
2. Is the "Western Disposal Area" the same area as RFDL #3 where the Bryant Mill Pond waste was disposed?
3. When were the permeability tests conducted (referred to in bullet #2 on page 1 of the enclosure)?
4. Based on EPA's answer on page 3 of the attachment, I assume that the Bryant Mill Pond TCRA is still *temporary*?

Thank you.

Another question on this:

Based on EPA's answer on page 3 of the attachment, I assume that the Bryant Mill Pond TCRA is still *temporary*?

Thanks,
Alice

Alice,

US EPA RECORDS CENTER REGION 5

406920

I faxed a hard copy and here are the electronic versions of the response letter and attachment to the Senator's letter on the Kalamazoo River cleanup.

(See attached file: Sen.LevinResponse.pdf) (See attached file: Sen.LevinAttachment.pdf.zip)
